The workshop will explore the core components of multi-tiered system of supports and provide a guide of looking at an effective delivery system that is intended to provide an educational experience for all students with a focus on effective instruction, scientifically based interventions and student outcomes. The workshop will also, explore how the S.S.T. (Student Success Team) augments the MTSS framework in its role as a problem-solving, multi-disciplinary team deeply examines individual student needs and helps identify the supports needed to promote student success.

Participants will:

- Discover the purpose, components and key actions for a successful multi-tiered system of supports.
- Discover ways how MTSS impacts teaching and student achievement.
- Reflect on how their school responds to DuFour’s four essential questions.
- Explore their responsibility, as an educator, to DuFour’s four essential questions.
- Discover how the S.S.T. (Student Success Team) process augments the multi-tiered system of supports to impact teaching and learning.
