

Kestrel 5400 Heat Stress Tracker Pro*

- » Properly acclimatize individuals based on **on-site data**, **real-time measurements**, and charting of logged data
- » Get extremely accurate instantaneous and average WBGT measurements
- » Set appropriate **WBGT thresholds for flag warnings** and receive instant notification of dangerous conditions via **loud buzzer, bright LED beacon, and on-screen warnings**
- » **Pair the Kestrel 5400 Pro* with the included vane mount** for hands-free measurements during practice, training, or other athletic events
- » Stay informed of dangerous conditions – the Kestrel LiNK app for iOS and Android will send **alerts to your mobile device** when heat stress thresholds pose a threat*

*Unit available with or without LiNK Bluetooth. The LiNK unit includes Bluetooth, vane mount, and protective carry case.

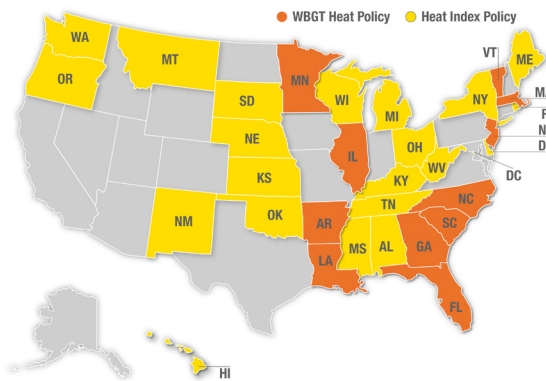

Use code at checkout for 15% off all heat stress units!

NATA22

Pre-programmed State Guidelines Available in the 5400 Heat Stress Tracker!

No manual setup required. Start tracking quickly and conveniently with the following national and state athletics guidelines installed for WBGT monitoring:

- » ACSM
- » NATA
- » Georgia
- » New Jersey
- » North Carolina
- » Vermont

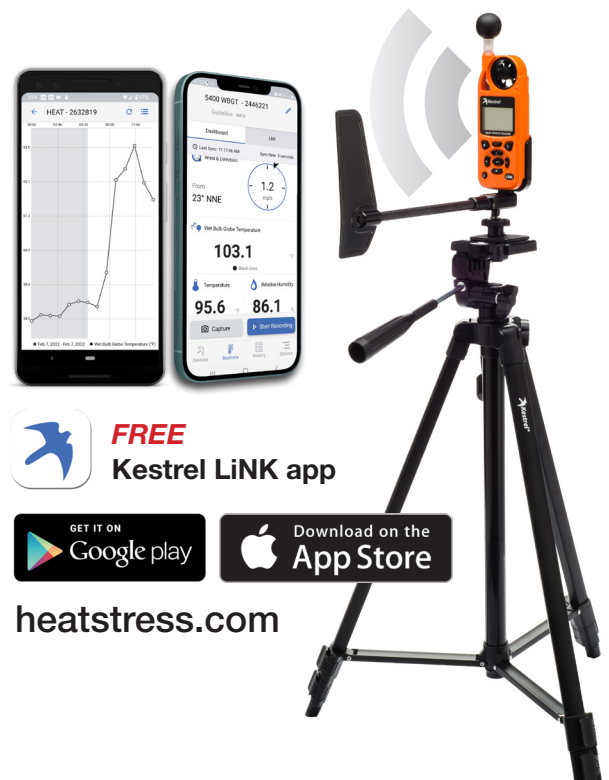

Trusted for Heat Safety Monitoring by Professional Organizations like the NFL, MLS, USTA and Division I, II, & III Universities.

"I use the Kestrel Heat Stress Tracker not to cancel practice, but to allow us to practice safely in the environment."

Dave Csillan, MS, LAT,
ATC National Athletic Trainers Association

Effortless Data Logging + Mobile Sharing Capabilities Keep You Connected For Sharing & Documenting Conditions.
