3. **Race Date Evaluation / Race Format Information:**

Below are the criteria set forth when conditions require a potential change to the primary date set by the MIAA Ski Committee during the spring meeting. Weather, race site conditions and availability of sites are all factors to be considered by the Race Director and MIAA Ski Committee Liaison to determine if a date/site change might be needed. Once a determination is made that the primary date may need to be changed, the MIAA Ski Committee Liaison will present the proposed change from the Race Director to the MIAA Ski Committee members for their concurrence. At that point the MIAA will communicate any changes to each Athletic Director at participating schools and the AD’s will inform each of their coaches.

Primary Race Date Evaluation:

- 1) Site conditions are safe and allow for, no less than 7 kilometer course or a two lap race for a competitive race event. Distance is at the discretion of the TD based on conditions.
- 2) Weather conditions allow for safe travel to and from the event.
- 3) Primary sites are Prospect Mountain (Woodford, VT) and Notchview Reservation (Windsor, MA) and, since both are cross country race centers with ideal terrain and grooming for the championship race.
- 4) Secondary sites are Weston Ski Track (Weston, MA) and Grafton Ponds (Grafton, VT) since they both have the capacity to provide a man-made loop in the event of no natural snow.
