Re: Athletic Participation and School Re-Opening Plans
Date: August 6, 2020

As school Districts decide the format of their school re-opening plans, the MIAA is fielding questions about the impact of those decisions on interscholastic athletics from school constituents, School Committees, Superintendents, school leaders and media outlets.

Please be advised the Association has no current policy which negates any athletic participation relative to a District's school re-opening plans. Members will be notified if there is any future modification to this guidance.
