

Proposal: Revise order of races (waves) to A,B,C order as opposed to the original C,A,B order.

Rational: When re-balancing waves this year to establish competitive equity due to add/drops/co-ops, the XC/Track committee approved waves in which some boys' team and girl's team were placed in different waves. With these wave revisions, a scheduling issue arose due to the rotation of waves the format initially listed. Currently, the format is set to the waves in a C,A,B order, thus leading a big gap for teams if their girls race in C and their boys race in B. We are hopeful to close both the wait time gap for the student athletes and alleviate transportation issues by revising our wave order to A,B,C, leading to back to back races as opposed to a 3 hour gap for some programs.

Motion: Recommend an A,B,C order of waves as opposed to the currently listed rotation (C,A,B) to the Tournament Management Committee. Approved unanimously by the XC/Track Committee (15-0-0).
